

PTO BENCH MOUNT

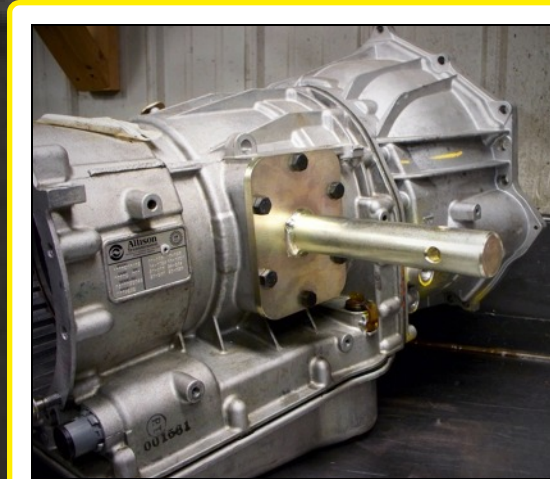

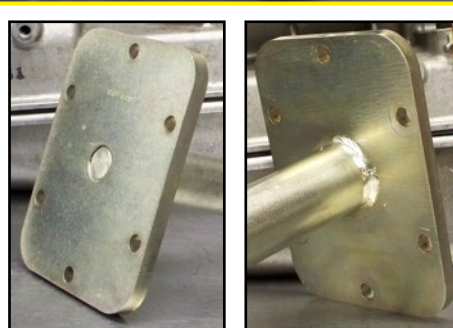

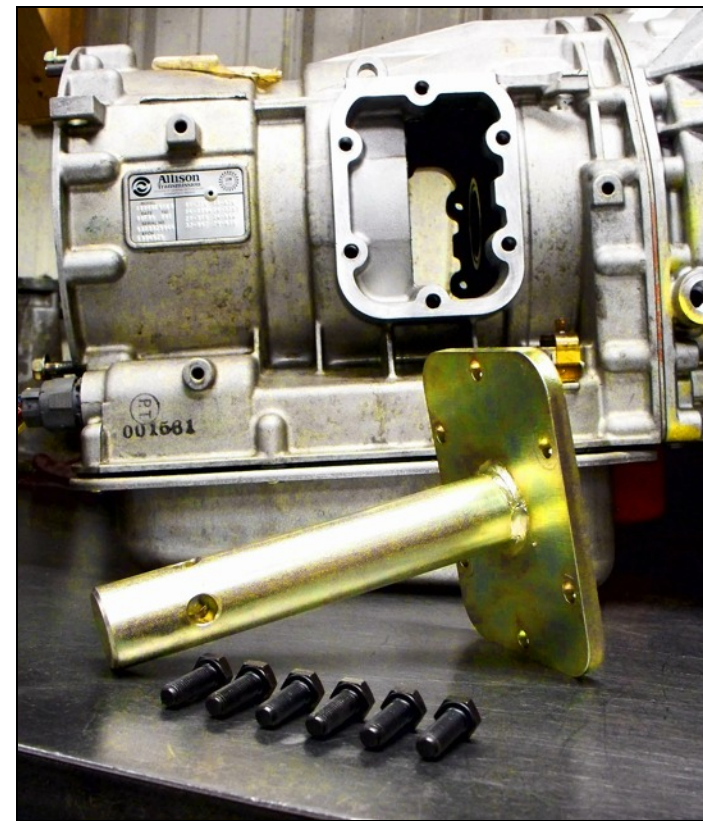

(2) DIAMETERS AVAILABLE! 1 3/8" #T-0156SMAC
1 1/2" #T-0156PAC

Finally help has arrived!

Many standard transmissions, transfer cases and hefty duty units like the Allison LCT1000/2000/3000 offer PTO capabilities.

Most of these units are awkward with no good way to mount them to your bench.

T-0156-PTO is available in two sizes to fit the most popular bench mounting fixtures. Choice of 1 3/8" or 1 1/2" diameter round stock is welded to the 3/8" thick steel base plate in a mortis-and-tenon fashion for the utmost strength.

The Right Tool for the Job.
